- D. Wideband radio equipment is not permitted on club controlled fields.

**Article XV  
RADIO OPERATION/FREQUENCY DISPLAY**

- A. No radio transmitter will be activated without having the appropriate channel control pin attached to the top rail of the Active Display Board.
- B. Frequency and channel use control is to be in accordance with the "Field Channel Control System" given at the end of this document.
- C. The channel control pin must be removed from the Active Board top rail at the completion of the flight or ground adjustments and the transmitter is turned off..
- D. Transmitters will display the applicable frequency channel. This display will be in accordance with AMA recommendations, and attached to the transmitter antenna.

**Article XVI**  
**AIRCRAFT FLYING REGULATIONS**

- A. The maximum time for a member to have possession of a frequency channel at any one time will be 15 minutes.
  - 1. The pilot using the frequency control pin has sole use of that frequency for a maximum of 15 minutes and may attain or attempt as many flights or other frequency-related activities as he may desire.
  - 2. If the pilot has a model airborne at the completion of the allotted time span, he will, if requested, land as quickly as practical.
  - 3. If your channel is in use at the time you come to the board, you shall place your channel pin on a waiting area on the right of the Active Display Board. The flow is bottom to top. The top pin is next to become active. When the pilot who has the channel clears the channel, he should let the next person in line know as a courtesy.
- B. A maximum of four (4) aircraft shall be airborne at any one point in time. Unless approved in advance by the Executive Committee for an authorized club event or fun fly. Gliders are not taken into account for the (4) aircraft rule as long as they are flying high. If they come down low and fly around the field then they are bound by the (4) plane rule.
- C. While in the pit area, all propeller wash/blast will be directed away from persons, planes, and cars.
- D. All pilots will stand in the designated stations, located on the west side of the field while flying their aircraft.
- E. Pilots will announce, so that all other pilots can hear and understand, all takeoffs, landings, and touch-and-goes prior to their execution. Pilots shall also announce when it becomes necessary to walk on to the field to retrieve their aircraft. etc.
- F. All flying shall be done east (far side) of the runway centerline, except for takeoffs and landings which may be done on the centerline. Except for taxiing, no operation of models is allowed west (near side) of the runway centerline. Flying over the pit-area(s), spectators, pilots, or vehicles, is strictly prohibited. Also, flying over the houses at the north end of the field, over Route 188, or over the farm buildings to the south or houses to the southwest is prohibited.
- G. Taxing into, or out of, the pit area is prohibited.
- H. Engine break-in will be performed only in the designated area by gate number 4 at the southwest end of the runway.
- I. Practice hovering of helicopters will be done in an area designated for this purpose. This area is at the south end of the parking area, or at the south end of the field beyond the cow fence, on the west side.

**Article XVII**  
**AMEMDMENTS**

- A. These bylaws shall not be altered, repealed, or added to without the consent of two-thirds (2/3) of the meeting members present at any regular or special meeting called for that purpose.

QFRC

# **Field Channel Control**

## **System**

As adopted at the June 2008 Meeting 9-10-  
08 BJ

### **For the 72mhz Channels 1-60:**

Each flyer is to fabricate a “Name Clip” from a clothespin with a small piece of plywood on it (or similar), and place their name on it. When preparing to fly, they are to REMOVE THE CHANNEL PIN FROM THE PIN HOUSE, AND PLACE THEIR “NAME CLIP” IN ITS PLACE. NEXT, PLACE THE CHANNEL PIN ON THE ACTIVE BOARD INDICATING YOUR FLYING STATUS.

### **Active Board procedure:**

Top = Flying and/or testing (mark “test” if testing).

Right side = Waiting to fly, top is next, bottom is last.

Left side = Not used

Optional – Also attach AMA card or club ID card under the channel pin. This is so someone just arriving at the field will see who is active and on what channel. When their flight is completed **THEY ARE TO RETURN THE CHANNEL PIN TO THE PIN HOUSE and RETRIEVE THEIR “NAME PIN”.**

**For the 2.4 ghz flyers:**

Place a clip, with your name on it, on the active board.

**Notice:**

***Maximum Four (4) aircraft flying at one time.***

***Time limit: 15 Minutes.***

***A “spotter” is strongly suggested for each pilot while flying.***
